

NEO Series Cordless SIP Phone

NEO's Ultra thin design by Internationally renowned design firm, easily complements today's modern guestroom. Its small footprint makes managing the desk space easy. The optional high powered mobile device charger provides guests with convenient fast USB Charging and the patented MCC (Multi Connector Charging) allows your guest to charge multiple devices without using their own cables.

Neo DECT's lithium Ion battery backup supplies up to five days of standby and 8 hours of talk time in the case of power loss. The LED status indicator eliminates the guess work of the battery backups condition.
